## PROJECTS

- **School website (Wordpress)**

Developed and maintained a WordPress website for a school, enabling students to access attendance records, class details, and announcements. Implemented features allowing teachers to manage attendance and grades, enhancing communication and administrative efficiency.  
link:- <https://school.paramountgrove.in>

- **A file sharing website**

allows users to effortlessly upload files up to 100MB in size. Once uploaded, users receive a unique link that they can easily copy and share with others.
